

New Software for Digit-All-World (DAW-SNA 951) Decoders

A new software for Dream Subscribers using DAW-951 decoder units shall be available over-the-air from December 26, 2007 up to January 8, 2008. This software is an upgrade from the current S/W Version 8.01 to S/W Version 8.02.

The new software aims to improve the over-all performance of your decoder and prepares the same for the upgrading of Dream's broadcast system.

Subscribers just need to tune-in to any of the following Dream Channels 1 to 10 during these dates (Dec. 26 to March 1, 2008) for a maximum of 30 (30) minutes to complete the upgrade/download process.

What to Watch Out For:

An indication that the download process has started is the prompt or message which shall appear on your tv screen. See message below:

?PLEASE WAIT, DOWNLOADING NEW SOFTWARE?

This message means the downloading or upgrading of your decoder's software has started. Do not interrupt this process as it may damage your decoder unit.

After a few seconds, another message shall appear onscreen:

?DO NOT POWER OFF FOR 20 SECONDS?

For a few more seconds, PLS DO NOT INTERRUPT THE PROCESS OR CHANGE CHANNELS. The entire process shall take 2-3 minutes.

How to Check if you downloaded New Software:

To check if the download was successful, using your remote control, do the ff:

1. Go to Main Menu
2. Go to System Information
3. See if S/W Version is S/W 8.02

If you missed upgrading time and your DAW951 was not upgraded please contact us for computer software upgrade. Call us at (021) 2730 9851.
