

## Setting up the Electronic Program Guide:

### FOR DIGI-ALL WORLD UNITS:

Your Receiver has an Electronic Program Guide (EPG) to help you navigate programs through all the possible viewing options. The TV Guide supplies information such as program listings and starting and ending times for all available programs.

- Select Program Guide in Main Menu or press the EPG button of Remote Control unit and the Program Guide screen will be displayed.

#### Now/Next EPG

1. The information may include: current time, name of the Now and Next Program, the starting and ending time of the Now/Next Program
2. Program information will be available only when it is included in the transmission
3. When you press **Red** button on the Remote Control unit, Now/Next Program Guide are toggled and will be toggled
4. When you press **TV/Radio** button on the Remote Control unit, you can alternatively select TV or Radio Channel Guide
5. After moving the cursor to NOW EPG field, press **OK** button and the extended event description text will be displayed in the right side of the window

#### Weekly EPG

- Shows the information of programs that will be played for a week:**Green** button: - 1 Day **Yellow** button: + 1 Day
- Weekly EPG appears in a few seconds after pressing the **Blue** button on the Remote Control Unit
- To see more detailed information about certain program, move the highlight to the program you want on the weekly EPG menu by pressing the **UP/Down/Left/Right** buttons and then press the **OK** button
- Press the Green or Yellow button to select the date you want

Note: If the OK button is not pressed hard on the channels (Programs), the Blue button doesn't operate. To see detailed information about the event you want, press the OK button on the appropriate event.
