

Anti-Piracy: Piracy Is Stealing!

Satellite TV piracy is to illegally receive satellite television without paying subscription to the channels. Smart card piracy: from the inception of satellite TV, a thriving underground industry has existed where pirates first crack the complex codes embedded in the smart cards, and then sell the secrets for personal gain. More advanced and complicated anti-piracy technologies are being adopted by Dream Satellite TV to beat piracy. Please buy legitimate subscription to protect your interests.

Dream Satellite TV only sell legitimately activated receiver box to subscribers. Please note that the following brands are officially sold from us since year 2002.
